

Red Devil

RD3000™

Advanced Self-Leveling Concrete Sealant

This advanced self-leveling concrete sealant is designed to offer superior adhesion, without tooling, to a wide variety of substrates. It cures with a smooth finish and is specially formulated to be exposed to water after only 2 hours without washing out.

ADHERES TO: Can be applied to a wide variety of substrates. Due to the fact that specific substrates such as plastics, like polycarbonate, etc. may differ from manufacturer to manufacturer, we recommend preliminary compatibility tests.

- Water Resistant In 2 Hours
- +50/-50% Joint Movement
- Low-VOC
- Mold And Mildew Resistant
- Won't Shrink Or Crack
- 900% Elongation
- Paintable
- Meets ASTM C920
