SSK

Sealant Smoothing Kit

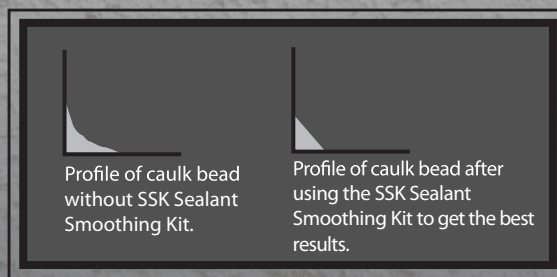

A Caulking Solution Made Easy!

4 Different Bead Options With Enclosed Smoothing Tool

- Eliminates Feathered Edges
- No More Messy Caulking
- Keeps Excess Sealant From Adhering to Unwanted Areas
- Saves Clean Up Time

Select the curve and bead size you desire. Place that tip of the smoothing tool against the caulk bead and begin to tool it. Use one smooth motion for best results. Wipe away excess as needed.

Apply bead of caulk

Mist the caulk bead and smoothing tool with SSK smoothing spray

Select the curve and bead size you desire. Place that tip of the smoothing tool against the caulk bead and begin to tool it. Use one smooth motion for best results. Wipe away excess as needed.
