

Red Devil

NON SKINNING BUTYL RUBBER[®] SEALANT

Non Skinning Butyl Rubber Sealant is a high performance, self healing, non-drying sealant that provides a sound reducing, vapor barrier for industrial/commercial and interior/exterior use and remains permanently flexible from -65°F to 250°F.

Excellent Adhesion to:

- Aluminum • Plastic • Wood • Fiberglass • Stone
- Metal • Brick • Marble

Ideal Uses:

- As a sealant in construction of metal buildings • As a sound-reducing acoustic sealant for wall panels • As a vapor barrier between substrates • Sealing roof drains and shingles and other commercial roof applications • On insulated metal panels • In walk-in refrigeration units • Applications where moisture and extreme temperatures would cause failure of other sealants.
