NEW CAULK GUNS

13" Rotating Barrel Caulk Gun - Thrust Ratio = 20:1

This professional grade 13" rotating barrel caulk gun is engineered for a smooth and precise material delivery of your high viscosity acrylic, silicone and polyurethane materials. The Drip Free™ feature allows for less product waste and increased application precision by stopping the material flow when the handle isn't engaged. Made with a heavy-duty metal barrel, handle, rod and plate it also features a built-in puncture pin, spout cutter and ladder hook for the operator's convenience. Compatible with 28 oz. cartridges.
