

Red Devil

FIREPLACE & STOVE SILICATE CEMENT

Fireplace & Stove Silicate Cement is a non-flammable, silicate-based compound that sets rock hard when fired. The black textured paste cures with a warm fire and provides a durable, long-lasting seal that withstands temperatures up to 1000°F.

FEATURES:

- Prevents Drafts
- Water Clean Up
- Withstands temperatures up to 1000°F
- Non-Flammable
- Durable, Long-lasting

USE ON:

- Fireplaces
- Concrete Ovens
- Wood-burning Stoves
- Chimney Joints
