### 4. FIRST AID MEASURES

#### First Aid Measures

##### **General Advice**

Provide this SDS to medical personnel for treatment. When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

##### **Eye Contact**

Immediately flush eyes w/ plenty of water for @ least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Do not apply neutralizing agents. Get medical attention if irritation occurs.

##### **Skin Contact**

Remove foam from skin using a cloth. Remove contaminated clothes immediately. Remove uncured foam from skin using delicate solvent such as acetone or mineral spirits (avoid contact w/ eyes). Hardened foam may be removed by persistent washing w/ soap & large quantity of water. If irritation develops, use a delicate cream. Remove & isolate contaminated clothing & shoes. Get medical attention immediately. Wash clothing separately prior to reuse.

##### **Inhalation**

Remove to fresh air. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled material. Induce artificial respiration w/ aid of a pocket mask equipped w/ a one-way valve or other proper respiratory medical device. Get medical attention immediately.

##### **Ingestion**

Rinse mouth. Do not induce vomiting unless advised by poison control center. Do not use mouth-to-mouth method if victim ingested material. Induce artificial respiration w/ aid of a pocket mask equipped w/ a one-way valve or other proper respiratory medical device. If swallowed, seek medical attention immediately.

#### Most important symptoms and effects

##### **Symptoms**

Inhalation: Vapors may irritate mucus membranes w/ tightness in chest, coughing, wheeziness or allergic asthma-like sensitivity. Extensive overexposure may lead to respiratory symptoms such as bronchitis & pulmonary edema. These effects are usually reversible. Overexposure to gases may result in light headedness, headaches or lethargy. Persons w/ cardiac arrhythmia may be @ increased risk w/ severe exposure.

Skin Contact: May cause localized skin irritation, redness. Prolonged or repeated exposure may result in sensitization, blistering &/or dermatitis.

Eye Contact: Causes eye irritation. For its adhesive feature, foam contact w/ eyes may result in physical damage due to adhesive properties.

Ingestion: Harmful if swallowed. Ingestion may result in gastrointestinal irritation, nausea &/or diarrhea.

**Indication of any immediate medical attention and special treatment needed****Notes to Physician**

In case of shortness of breath, give oxygen. Keep victim warm. Symptoms may be delayed.

**5. FIRE-FIGHTING MEASURES****Suitable Extinguishing Media**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Small Fire**

Dry chemical or CO2.

**Large Fire**

Dry chemical, Foam.

**Unsuitable Extinguishing Media** Water jet.

**Specific Hazards Arising from the Chemical**

Product is an extremely flammable aerosol.

Hardened foam is an organic matter & will burn in the presence of sufficient heat, oxygen & ignition source.

**Hazardous Combustion Products** On burning, releases toxic & corrosive gases (phosphorous oxides, nitrous vapors, hydrogen chloride, carbon monoxide & carbon dioxide).

**Protective equipment and precautions for firefighters**

In event of fire, cool tanks w/ water spray. Move containers from fire area if it can be done w/o risk. Self-contained breathing apparatus & full protective clothing must be worn.

**6. ACCIDENTAL RELEASE MEASURES****Personal precautions, protective equipment and emergency procedures****Personal Precautions**

Eliminate all ignition sources (no smoking, flares, sparks or flames in area). Local authorities should be advised if significant spillages can not be contained. Ensure adequate ventilation. Keep individuals away from & upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Remain upwind. Ventilate closed spaces prior to entering. Keep unnecessary personnel away. Keep out of low areas. Wear appropriate protective equipment/clothing during clean-up.

**Environmental precautions****Environmental precautions**

See Section 12 for additional Ecological Information. Do not contaminate water.

**Methods and material for containment and cleaning up****Methods for Containment**

Prevent further leakage or spillage if safe to do so.

**Methods for Clean-Up**

Remove from surfaces by scraping up excess material & removing residual residue w/ cloth & a solvent such as acetone or mineral spirits. Hardened foam can only be removed physically or mechanically by scraping, buffing, etc. This material & its container must be disposed of as hazardous waste. Dispose of plastic waste material (foam plastic) in accordance w/ all applicable guidelines & regs.

## 7. HANDLING AND STORAGE

### Appropriate engineering controls

#### **Engineering Controls**

Ensure adequate ventilation, especially in confined areas. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation (typically 10 air changes/hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If limits have not been established, maintain airborne levels to an acceptable level.

### Individual protection measures, such as personal protective equipment

#### **Eye/Face Protection**

Safety glasses as a minimum for protection.

#### **Skin and Body Protection**

Refer to 29 CFR 1910.138 for appropriate skin and body protection.

**Respiratory Protection**

Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release. When workers are facing concentrations above the exposure limit they should use appropriate certified respirators.

**General Hygiene Considerations**

Do not eat, drink or smoke when using this product. Avoid contact with skin, eyes or clothing. Wash contaminated clothing before reuse.
