1. PRODUCT AND COMPANY IDENTIFICATION

Product Identifier
Product Name 1 hr Shower Series Silicone Sealant – Acetoxy Cure – Translucent & White

Other Means of Identification
SDS # RD-0081A

Product Code 0816KB, 0826KB Series

Recommended Use of the Chemical and Restrictions on Use
Recommended Use Silicone Sealant.

Details of the Supplier of the Safety Data Sheet
Supplier Address
Red Devil, Inc.
4175 Webb Street
Pryor, Oklahoma 74361
www.reddevil.com

Emergency Telephone Number
Company Phone Number 918-825-5744
Fax: 918-825-5761
Emergency Telephone INFOTRAC 1-352-323-3500 (International)
1-800-535-5053 (North America)

2. HAZARDS IDENTIFICATION

Classification
Skin corrosion/irritation Category 2

Signal Word Warning

Hazard Statements
Causes skin irritation

Appearance Translucent or White paste  Physical State Paste  Odor Acetic Acid Odor (Vinegar odor)
Precautionary Statements - Prevention
Wash face, hands and any exposed skin thoroughly after handling
Wear protective gloves/protective clothing/eye protection/face protection

Precautionary Statements - Response
IF ON SKIN: Wash with plenty of soap and water
If skin irritation persist: Get medical advice/attention
Take off contaminated clothing and wash before reuse

Hazards Not Otherwise Classified (HNOC)
Not Applicable

Other Information
Not Applicable

3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>

</table>

* Unlisted ingredients are not considered hazardous under the OSHA GHS Hazard Communication Standard (29 CFR 1910.1200).

(Methyltriacetoxysilane) Observe limits for acetic acid formed during curing on exposure to water or humid air. (Silica, amorphous; Titanium Dioxide) Inhalation of particulates unlikely due to product’s physical state

4. FIRST AID MEASURES

First Aid Measures

General advice
Provide this SDS to medical personnel for treatment.

Inhalation
If symptoms are experienced remove source of contamination or move victim to fresh air. If irritation persists, obtain medical advice.

Eye Contact
Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 5 minutes while holding the eyelid(s) open. Obtain medical attention.

Ingestion
Rinse mouth thoroughly with water. If irritation or discomfort occurs, obtain medical advice.

Skin Contact
No health effects expected. If irritation does occur, flush with lukewarm, gently flowing water for 5 minutes. If irritation persists, obtain medical advice.

Most Important Symptoms and Effects, both Acute and Delayed

Symptoms
Causes skin irritation. May cause nose, throat & respiratory tract irritation. Direct contact with eyes may cause temporary irritation.
Indication of any Immediate Medical Attention and Special Treatment Needed

Note to Physicians: Treat according to person’s condition & specifics of exposure.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Small Fire  
Use carbon dioxide (CO2), dry chemical or water spray.

Large Fire  
Use dry chemical, foam or water spray.

Unsuitable Extinguishing Media: Not determined.

Specific Hazards Arising from the Chemical
Not determined.

Protective Equipment and Precautions for Firefighters
Self-contained breathing apparatus & protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions  
Observe all personal protection equipment recommendations described in Sections 5 & 8.

Environmental Precautions  
See Section 12 for additional ecological information.

Methods and Material for Containment and Cleaning Up

Methods for Containment  
Prevent further leakage or spillage if safe to do so. Use absorbent material to contain spill.

Methods for Cleaning Up  
Wipe up or scrape up & contain for salvage or disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur. Local, state & federal laws & regulations may apply to releases & disposal of this material as well as those materials & items employed in the cleanup of releases. You will need to determine which federal, state & local laws & regulations are applicable. Sections 13 & 15 of this MSDS provide information regarding certain federal & state requirements.

7. HANDLING AND STORAGE

Precautions for Safe Handling

Advice on Safe Handling  
Handle in accordance with good industrial hygiene and safety practice. Wash face, hands, and any exposed skin thoroughly after handling. Use personal protection recommended in Section 8. Use only in well-ventilated areas. Avoid contact with skin and eyes. Product evolves acetic acid (HOAc) when exposed to water or humid air.
Conditions for Safe Storage, Including any Incompatibilities

Storage Conditions
Keep container closed & store away from water or moisture.

Incompatible Materials
Oxidizing material can cause a reaction. Water, moisture or humid air can cause hazardous vapors to form as described in Section 8.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines
Exposure guidelines / protective equipment are for routine handling and accidental spills

<table>

Other Information
Acetic acid is formed upon contact w/ water or humid air. Provide adequate ventilation to control exposures within guidelines of OSHA PEL: TWA 10 ppm & ACGIH TLV: TWA 10 ppm, STEL 15 ppm.

Appropriate Engineering Controls
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Good general ventilation should be sufficient.

Individual Protection Measures, such as Personal Protective Equipment

Eye/Face Protection
Safety glasses as a minimum for protection.

Skin and Body Protection
Wear suitable protective clothing.

Respiratory Protection
No special equipment needed.

General Hygiene Considerations
Note: These precautions are for room temperature handling. Use @ elevated temperature or aerosol/spray applications may require added precautions. Handle in accordance with good industrial hygiene and safety practice. Wash @ mealtime & end of shift. Contaminated clothing & shoes should be removed as soon as practical & thoroughly cleaned before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Evaporation rate  Not determined
Flammability (solid, gas)  Not determined
Flammability limits in air
  Upper flammability limits  Not determined
  Lower flammability limit  Not determined
Vapor pressure  Not determined
Vapor density  Not determined
Specific gravity  ~1.04  @ 25 °C (77 °F)
Water solubility  Not determined
Solubility in other solvents  Not determined
Partition coefficient  Not determined
Autoignition temperature  Not determined
Decomposition temperature  Not determined
Kinematic viscosity  Not determined
Dynamic viscosity  Not determined
Explosive properties  Not determined
Oxidizing Properties  Not determined

Other Information
Additional information  Note: The above information is not intended for use in preparing product specifications
VOC Content (%)  < 3%/wt (< 40 g/L)

10. STABILITY AND REACTIVITY

Reactivity
Not reactive under normal conditions

Chemical Stability
Stable under recommended storage conditions.

Possibility of Hazardous Reactions
None under normal processing.

  Hazardous polymerization  Hazardous polymerization does not occur.

Conditions to Avoid
Incompatible Materials.

Incompatible Materials
Oxidizing material can cause a reaction. Water, moisture or humid air can cause hazardous vapors to form as described in Section 8.

Hazardous Decomposition Products
Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products:
Carbon oxides & traces of incompletely burned carbon compounds. Silicon dioxide. Formaldehyde, Nitrogen oxides & metal oxides.

11. TOXICOLOGICAL INFORMATION

Information on Likely Routes of Exposure

Product Information

  Inhalation  May cause irritation of respiratory tract.
  Eye Contact  May cause temporary irritation on eye contact.
  Skin Contact  Causes skin irritation. Can be absorbed through the skin.
Ingestion
Can be harmful if swallowed.

Persistence and Degradability
Complete information is not yet available.

Bioaccumulation
Complete information is not yet available.

Mobility
Complete information is not yet available.
Other Adverse Effects
Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

Note
Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances

DOT
Not regulated

IATA
Not regulated

IMDG
Not regulated
